GENERAL NEWS

The general sales agents of the anthracite coal companies in New York Thursday decided to make no reduction in prices, either for the east or They also decided to restrict production during May to 2,890,000 tons, which is about 50 per cent, of their theoretical capacity. The production for May 18, 1893, was 3,700,000

It is understood that at the approaching annual election of the Delaware and Hudson Canal company the ticket for directors in the Olyphant-Vander-bilt interest will contain the names of Vice President H. Walter Webb, of the New York Central: Vice President York. Upon receiving notice thereof, J. W. Alexander, of the Equitable Life Mr. Curt allowed Mrs. Hillers to go cil and the citizen's advisory commit tee will be held Monday evening, April to succeed members of the board of managers who are supporting the Le-Grand Cannon ticket in opposition to President Clyphant. The Olyphant party now claim to have prexies for a certain of electing their ticket.

Retail dealers in tituminous coal do not find their business alike affected, The recent general strike of the miners. which has tied up mine shipments in generally, cannot seriously affect small dealers for some time to come-hardly before next fall. Large dealers, or contractors, which now supply smelting furnaces and large manufactories, will have sufficient cause to complain should the strike continue. Many of them school room of Trinity church, bagin have contracted to deliver immense quantities of coal for months ahead.

The Monongahela blast furnaces of ments of their own making. the National Tube works company, at posits for the Penny Savings bank will McKeesport, are both off duty. The be received at the close of the exercises fornaces closed down Thursday. instead of at 3 o'clock, as usual nace "A" will be relined, which will general invitation is extended to the require an outlay of \$25,000. A scargeneral invitation is extended to the city of coke has necessitated the temporary banking of furnace "B." Very law men will be thrown out of work as the workmen will be employed tear ing out the lining of furuses "A" and relining it. The work will require saveral weeks time.

The various business interests in Schnylkill county are beginning to liven up, and there are said to be brilliant prospects for the future. The mammoth plant of the Pottsville Iron company, which has been operated very irregularly during the past year, yesterday resumed fullhanded. Better time has been made during the past two weeks than has been the case for some months. The company has a number of orders on hand, The Schuylgill Haven Rolling mills also started up this week and the indications point to steady work for some time to come. This plant is also to resume fullhanded.

Receiver William B. Broomall, of the Wellman Steel and Iron company, has ordered a complete shut down of that big plant, to take effect today. The Wellman works in prosperous times employed over 1.200 men, but since the failure of the company and the appointment of the receiver, only portions of the immense works have been operated All the clerks and salaried officials have been notified that there is no long er any necessity of their services. An effort will be made to sell the plant. It a one of the most complete establishments in the country, and was estab-lished by the late John Roach in 1875. The Crezer family secured control of it en years ago, after which time a conrolling interest was purchased by Samuel T. Wellman, of Cleveland, O. The investment in the plant aggretates over \$1,800,000.

MINOR INDUSTRIAL NOTES:

A cargo of 3,100 tons of iron ore from St. Ingo, Cuba, has been received at Balti-more, consigned to the Pennsylvania Steel rompany at Steelton.

Bids for supplying the Boston and Maine Bids for supplying the Boston and Maine Bills and with 232,000 tons of bituminous coal will be opened by the general mana-ger of the road at Boston today.

The Johnson Railroad Signal company, of Rahway, has received a \$50,000 contract from the Delaware, Lackawanna and Western railroad. It is stated that a strike of the 4,000 era-

It is stated that a strike of the 4,000 employes of the Puliman company at Chicago will be declared on May 1.

A contract for a tin plate plant to cost \$100,000 and to employ 100 hands has been made at Marion, ind. The contract is with E. Stanford, formerly manager of the tin plate works at Elwood, and one of the proprietors of a similar plant at Atlanta. The factory is to be in operation by September 1.

Criticising a Young Lady. She would be a pretty girl for but one

thing."
"What's that?" asked Charley. George—Her face is always covered with purple and red blotches. Charley—Oh, that's easily enough dis-posed of. Used to be the same way my-self, but I caught on to the trouble one day, and got rid of it in no time. Georgo—What was it?

Ceorgo—What was it?
Charley—Simply blood eruptions. Took a chort course of P. P. P. I tell you it?

JOHN HAMLIN, D. V. S.

Charming Woman Makes Public Some

How People Start Wrong, and Finally Develop Into Perfect Persons. It is Clearly Explained.

is one of them:

"Many people have started wrong period of youth, when the system uo dergoes a remarkable change. Their mothers used to say they grew too fast and would fill out after awhile. But they never did. At last what may be called the habit of thinness was formed in their bodies, which no treatment to overcome. Here is another .

Of late years pale, thin people of both exes have come to be an increasing majority in this country. The young persons who grow pale and slender, without breadth or staming, toe often perish as they grow. The statistics of the throat and lung hospitals tell the story of their fate. They are born with nerves and brains, but without borne and nine for Voight. The ballot the most important arrangement of all-a good digestion. Such people are too often troubled by headaches, despondency, constant indigestion, coughs, weakness and a general disgust of life, They do not need medicines nor change f scene, they need the proper food and the power to digest and appropriate it to the body's constant need.

And still another: "The great American diseases is malassimilation of food-in others words, partial starvation. People who eat, but do not digest their food, are in a worse condition than if they took no food at all, because the already weakened body has no labor, to try and digest, and becomes exhausted in the of-fort. It is fortunate however, that science has found a way by which this can be avoided, and by which pale, thin and weak people may be restored to health and strength. It is a simple principle, as all principles are simple. Use a food that has passed through a ligestive process before being taken nto the system, so that it enters at once into the circulation and the life. The food that I refer to, which for some time was not named by scientists, is now known as Paskola, and has been given to the public. Certainly it is something never before known in the sistory of the world, and besides a new idea, it is based on wholly scientific principles. That it will accomplish all that is desired of it, there is no doubt. This food can be found at nearly any drug store.

Thinness is not necessarily a sign of sickness, but it is a sign that you are in danger of being sick. It is a sign that if you do get sick, it may be hard for you to get well. That the least hill may cause a celd, the least cold may become something worse. Out of that condition of small allments may come many of the larger ones, and advise all people who are sensible wide-awake and quick to take advan tage of the best discoveries of the age not to hesitate, but by the best means possible come out of this condition at

A pamphlet giving full particulars. respecting Paskola will be sent on apication to the Pre Digested Foed Co., Reads street, N. Y. City.
